=====  
*Answer the following questions on a separate page or pages:*

1. What will the final product be? State the scope and length of a paper. (Examples: 10-page research paper, photography exhibit, performance piece)
2. What problem or issue will you be investigating? What hypothesis or questions have you framed? Be as clear and specific as possible.
3. What specific methods will you use, or what steps will you take, to investigate your problem or issue? Explain in detail.
4. Please attach a bibliography of works you will read. Use the format appropriate to the discipline in which you will be working (MLA, Chicago, etc.).
5. If you are doing a Traditional Challenge, give the course number and title here, and explain how your project goes beyond the requirements for the course.

To ensure that your Challenge is successful, agree on deadlines with your supervisor. Your project *must* be completed in time to submit an abstract to one of the co-directors prior by the appropriate deadline.
