

Kurzweil 3000 Request Form

Coordinator of Disability Services, Yager 504
The Loft, 5th Floor, Stevens-German Library, Yager Hall
Tel: 607-431-4546; Fax: 607-431-4567

I, _____, am requesting to have the Kurzweil 3000 Learning Station software installed on my laptop for the _____ semester.

I understand that I must first watch the Kurzweil online demo and then meet with the Coordinator of Disability Services or the Assistive Technology staff to receive additional training and practice for learning the features of the program.

I agree that this program is a loaner by semester only and my computer must be brought into the Disability Services area at the end of the semester to have the program uninstalled.

Failure to have the program uninstalled and the Kurzweil materials returned to the will result in a hold on my pre-registration procedure and availability to purchase textbooks. Once it is verified that the Kurzweil program and materials are returned, the hold will be removed from your account.

In the event that I no longer want or need this program installed on my computer, I will bring it to the Disability Service area in the Loft (5th floor Yager Library) to have it properly uninstalled using a key disk.
