Notes from the field:
Dr. Gary Bergstrom & Dr. Mark Sorrells, Cornell
Corey Mosher, Mosher Farms
Progress of bringing malting barley back to NY. We will cover research that is going on at Cornell (variety trials, seed rate, date, nutrient management, disease management) based on the needs of this emerging industry.

Winter Malting Barley Breeding and Outcomes for Emerging Growing Areas.
Dr. Kevin Smith, University of Minnesota
Zach Gains, Lima Grain
This workshop will help us understand how a barley breeder works to develop varieties that maltsters and brewers seek for their craft.

Modification: Break it Down
Dr. Patrick Bouvin, IFBM
Learn how to master the four critical elements of fire, water, air, and time to achieve the biochemical transformations of starch, cell walls and proteins that all maltsters seek.

Farmer Brewer Roundtable - Panel Discussion
Moderated by Amy Halloran
A discussion with farmers, maltsters and brewers exploring how the local movement is redefining the practice and economics of producing our daily beer.
Corey Mosher, Mosher Farms
Ben Roesch, Wormtown Brewery
Joel Alex, Blue Ox Malthouse
Tim Matthews, Oskar Blues Brewery
Chuck Skypeck, Brewer's Association

Malting and Brewing with Rye
Paul Schwarz, North Dakota State University
Two years of research in the NDSU lab have produced interesting results and insight into how we can improve the malting and brewing performance of rye.

Lessons from the Malt Lab
Aaron MacLeod, Hartwick College
Learn how malt analysis can be used to dial in your process and final product quality using real examples and case studies.

Harnessing the Power of the Elements
Adam Paul, Integrated Process Engineers & Constructors (IPEC)
It takes a combination of engineering, mechanics, pumping and controls to build malting equipment. Learn the fundamental principles behind designing and building equipment from those who do it.

The Revolution Must be Financed
Joel Williamson, LINC Foods
Joel Alex, Blue Ox Malt
Hear from new maltsters about how they plan for growth and how they financed it.
